

Augustine O. Salami | Junior Full-Stack (MERN) Developer

Nigeria | Remote Ready | Email: salamiaustine@yahoo.com | Phone: +2348158376305 | GitHub: <https://github.com/Austinixe> | LinkedIn: <https://www.linkedin.com/in/augustine-salami-9a2a83232>

PROFESSIONAL SUMMARY

Entry-level full-stack developer with hands-on experience building and testing MERN applications. Skilled in JavaScript, Node.js, Express, MongoDB, and React, with practical experience in API development, authentication, and deployment troubleshooting. Background in project management and facility operations has honed problem-solving, attention to detail, and collaborative skills. Passionate about developing scalable web applications and contributing to team success in a fast-paced environment.

TECHNICAL SKILLS

- **Languages:** JavaScript
- **Frontend:** React, Vite
- **Backend:** Node.js, Express
- **Databases:** MongoDB, MongoDB Atlas
- **Testing:** Jest, Supertest
- **Tools:** Git, GitHub, Postman, dotenv, Nodemon
- **Other:** REST APIs, Authentication, Debugging, Deployment

PROJECTS

MERN Recipe Application

- Developed a full-stack recipe management application using React, Node.js, Express, and MongoDB
- Implemented user authentication and protected routes
- Integrated MongoDB Atlas for cloud database management
- Wrote backend tests using Jest and Supertest

Real-Time Communication App (Socket.IO)

- Built a real-time messaging application using Node.js and Socket.IO
- Managed server setup, event handling, and client connections
- Troubleshot deployment and port conflicts to ensure stable operation

Testing & Debugging MERN Applications

- Implemented automated backend tests using in-memory MongoDB and Supertest
- Validated API endpoints and authentication flows
- Improved application reliability through structured testing

EDUCATION/CERTIFICATION

Post Graduate Diploma in Production Engineering – University of Benin, Nigeria, 2015

MERN-STACK – Power Learn Project Africa (PLP), December 2015

Responsive Web Design – FreeCodeCamp, April, 2015

NON-TECH EMPLOYMENT HISTORY

Facility Manager – Skylight Engineering Services LLC, Dubai, UAE (2018–2022)

- Coordinated all facility maintenance and equipment planning, ensuring smooth operations
- Conducted daily inspections to identify and resolve issues proactively
- Managed security measures to safeguard assets, personnel, and sensitive information
- Prepared reports for facility owners and handled key administrative tasks

Project Site Engineer (Mechanical) – Shell Nigeria Exploration and Production Company, Lagos (2015–2017)

- Supervised installation of mechanical systems including firefighting, HVAC, and water treatment
- Interpreted construction drawings and ensured compliance with standards and safety rules
- Managed site operations, monitoring execution, and ensuring quality control

CORE COMPETENCIES

- Problem-solving and debugging
- Project planning and task management
- Collaboration and teamwork
- Technical documentation
- REST API design and implementation
